

Music / Fashion Videos

Please click on image

<<< for our award

winning fashion video

We are currently shooting, directing and producing music and fashion videos both in Ireland and abroad.

We cover the entire production process from scripting, storyboarding, through to shooting, editing and post-production.

We work with our clients right from the concept stage

of their ideas through to the finished production.

As trained film makers we enjoy the process and creative diversity immensely.

We take inspiration and direction from our clients needs, influences and goals and strive to produce videos that are new, personal, different and groundbreaking.

We are interested in creative and artistic excellence as to us making music and fashion videos is a labor of love!
